## MATERNAL & CHILD HEALTH MONTH

SERVE TO  
CHANGE LIVES

# Letter from the Governor

Dear fellow Rotarians,  
Greetings from the first lady Nabinita and me! After postponing the District Conference from the initial announced date of February 1, 2022 due to third wave of Omicron variant of Covid-19 we are finally having the 14th District Conference from April 1-3, 2022 at Hotel Mechi Crown, Jhapa. Many of you have travelled from good distances and we want to thank each one of you for your patience, strong support and enthusiasm by attending this Conference.

This Conference is a much needed in-person event especially in these times where finally we get the opportunity to meet and renew our friendship and also make new acquaintances. It is also an occasion where we learn about Rotary happenings globally and about our own District.

Our Conference organizing committees and subcommittees have worked tirelessly around the clock for months to put together a package full of inspiring personalities, sharing sessions and awesome fellowship events which I am sure you all will enjoy.

I am happy that despite COVID, we have continued our good work in serving our Communities and the humanitarian services continue at all levels as I write this. This would not have been possible without you and I cannot thank you enough.

The month of April is dedicated to Maternal and Child Health and is one of the seven area of focus of Rotary. Every day mothers risk their lives giving birth and millions of children die each year from treatable, preventable causes. At least 7 million children under the age of five die each year due to malnutrition, poor health care, and inadequate sanitation. To help reduce this rate, Rotary International provide immunizations and antibiotics to babies, improve access to essential medical services, and support trained health care providers for mothers and their children. Their projects ensure sustainability by empowering the local community to take ownership of health care training programs.

I urge all Rotary Clubs to dedicate this month to focus more on Maternal and Child Health by undertaking projects like Mobile prenatal clinics, Cancer screening, preventing injuries and deaths etc. to name few.

Let us all achieve this goal together by “Live to Serve” and “Serve to Change Lives”

**Santosh Prasad Rijal**

# RI President's Message

Friends, one of my mantras in Rotary has been do more, grow more. I am sure you are adopting this mantra. Do more, as in bigger and impactful service projects, and grow more, as in increasing our membership.

There is so much excitement across the Rotary world about our Each One, Bring One effort. Everywhere I travel, club presidents, district governors, and Rotary members — both veteran and new — express appreciation that their membership efforts are inspiring the Rotary world.

We are growing more, and I cannot wait to celebrate all of this success with you at the Rotary International Convention in Houston in June. There is still time to register and make your plans to join us. We are looking forward to a once-in-a-lifetime experience that will unite our members after far too much time apart.

As we grow more, we will have so much more opportunity to do more. April is Maternal and Child Health Month, a great opportunity for your clubs to consider what you are doing to support the health of mothers and young children. Improving access to care and the quality of care for women and children worldwide is an important focus for us and it also ties in very well with our Empowering Girls initiative. I appreciate the work being done by various clubs in this area of focus, and I would encourage you to think of ways to do more.

It has been so exciting to see Rotary members come together at the presidential conferences to share ideas about using our areas of focus to bring about big, lasting change in the world. The past and upcoming presidential conferences are looking at our new area of focus — the environment — and how our work to protect our planet must support our efforts to grow local economies, especially in places with the greatest poverty. I also had the honor to speak at the 26th United Nations climate change conference in Glasgow, Scotland, known as COP26. This important meeting brought together nearly 100 heads of state and government over a two-week period to set new targets for fossil fuel emission. My call to action was to restore mangroves, a crucial ecosystem that can mitigate the effects of climate change in coastal areas. Already, countries across the world are showing great enthusiasm for this plan.

Our survival is at stake — the damage of environmental catastrophe is already upon us — and so, too, is our ability to lift the world's most needy out of poverty and offer them hope. We must find ways to protect our planet while sustaining the economic growth necessary to achieve our highest humanitarian goals.

This is a very exciting time in Rotary, a time when the world needs us most. As we Serve to Change Lives, remember that we are also changing ourselves. We are becoming the world's great change-makers and peacebuilders.

The world is ready for us. It's time to rise to that call.

## CHANDESWORI TEMPLE CLEANING AT PIMBAHAL BY ROTARY CLUB OF YALA, FEBRUARY 4, 2022

On February 4, 2022, the Rotary Club of Yala initiated a trend of holding a weekly meeting this year in our traditional heritage sites combining with cleaning the temple and using the public space for the meetings. In order to revive participation declined due to pandemic, Rotary Yala held the weekly meeting at Pimbahal sattal in the middle of the pond (Jagmadu pukhu). Preceding the meeting, some 50-55 members assembled to clean the Chandeswori temple, including Rotarians, Rotaracts, Interacts, Anns, together with the Chandeswori Misa Pucha (Chandeswori Women's Group) and Yala Sampada Group (Patan Heritage Group) who had been involved in the restoration of Pimbahal area. The temples are important sites where the local communities pay a visit in the morning and sing bhajan as a way of purifying the mind, putting lights and giving offerings to birds and animals. These places, despite their richness in heritage, do not have a regular cleaning system and remain dirty and stained with oil, vermilion powder, rice, and flowers.

Shailendra Shrestha, the local resident, and resource person from Taja Phaa was invited as a guest speaker to talk about the historical and cultural importance of the temple and the Pimbahal area and the role it plays in the lifestyle and economic fabric of the local community.

This way we have physical meetings, a clean temple, sharing potluck of indigenous food (Samaye baji), and public event to draw the attention of non-Rotarians. Rotary Club of Yala acknowledges Twinkle Nyachhyon, Public Image Director for introducing a new concept of bringing Rotary's social service activities of utility to the public and engaging communities alongside ROTARIANS.

# Editorial Note

Dear Fellow Rotarians,  
I am pleased yet again to bring to you the 10th Governor's Monthly Letter (GML) of this year-April Issue.

The month of March has been dedicated as Water and Sanitation month and we saw a lot of clubs focusing their activities on this area of focus

to Rotary which is one of the most important activities that Rotary has taken upon itself as the source of everything is water.

This issue also marks the welcoming of all the Rotarians to the 14th District Conference at Hotel Mechi Crown, Jhapa. This Kumbhamela of RI District 3292 is a great opportunity for all the Rotarians locked up with the COVID-19 to come together to meet and renew our friendship and also make new acquaintances. It is also an occasion where we learn about Rotary happenings globally and about our own District.

The month of April is celebrated as "Maternal and Child Health". While we celebrate this month dedicated to Maternal and Child Health, we hear reports of an overwhelming number of the children of Mukhtikot village, Swamikartik Khapar Rural Municipality -1, Bajura suffering from severe malnutrition. As per locals, as many as 12 children, including infants, have already lost their lives to malnutrition since April 2021.

So, as Rotarians, it's time and more aptly the month to focus in this aspect of service which is also one of the core areas of focus of Rotary. We from RI District 3292 Publication and GLM Sub-committee 2021-22 would like to see more clubs sending us their activities on Maternal and Child Health.

We would once again like to request you to contact your respective Regional Chairs to send us the report in the prescribed format and not on Viber, WhatsApp, and other social media platforms as we are swamped with other information on such platforms and great humanitarian works done by clubs might be missed. We are all here to showcase your project! Cheers to Rotary! Happy reading!
